

LABCAT ANOUNCES ALLIANCE WITH LABINDIA

Princeton NJ (August 1, 2011)

Innovative Programming Associates, the developer of the LABCAT family of software solutions (www.LABCAT.com) is pleased to announce that it has entered into Agreement with LabIndia (www.LABINDIA.com) whereby LABINDIA will market LABCAT software products in India. All inquiries, of online demonstrations and webcasts regarding LABCAT **from Indian companies** scheduling will be handled through Labindia (www.Labindia.com). India has rapidly become a major resource for the pharmaceutical and biotechnology companies in North America, Europe and Japan for conducting nonclinical evaluation of new products for this industry as well as others.

LABCAT is an innovative software system that helps the user to conduct, collect, analyze and report data in preclinical studies, which can be performed either under non-GLP or GLP Part 11 compliant conditions. Software modules cover in life observations, tumor tracking, clinical pathology laboratory test results, necropsy and pathology. Use of any one or any combination of the modules will increase efficiency and data management of each study. Dozens of preformed analyses and statistical tests are available in each program.

All programming and Level 2 client support will continue to be handled by LABCAT personnel based in the United States. For information on products outside of India, please contact info@labcat.com.
